## **DETAILED ACTION**

### ***Drawings***

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities: page 6 (line 18) and page 11 (line 14), "closet" appears to read "closest"; page 13 (line 2), "shows" should be "show". Appropriate correction is required.

### ***Claim Objections***

3. Claims 1-4, 6, and 8-10 are objected to because of the following informalities:

In claim 1, line 10, "a soft-decision metric" should be "the soft-decision metric" for clarity.

Claims 2-4 and 10 depend upon claim 1.

In claim 8, line 5, "signal" should be "convolutionally coded signal"; line 10, "the two" should be "two"; and line 18, "after the setting steps, further comprising" should be "the setting step further comprises".

Claim 6 depends upon claim 8.

Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-4, 6, 8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 (lines 5, 6-7, 7-8, 8 and 12), claim 2 (line 2), claim 3 (lines 2 and 3-4), claim 4 (lines 2-4), and claim 8 (lines 14, 19, 20 and 22), the phrases "the set of all possible Gray-coded constellation points", "the input symbol", "the range of restricted constellation points", "the entire possible range of symbols", "the soft-decision metrics", "the data and pilot signal gains", "the squares of the distances", and "the restricted constellation points" all lack antecedent basis.

In both claims 1 and 8, none of the steps recited in the body of the claims has the connection or cooperation of the inputting step for inputting a real part and an imaginary part.

In claim 8, the claimed subject matter of step b) is not understood.

Claim 6 depends upon claim 8 and claim 10 depends upon claim 1.

***Allowable Subject Matter***

6. Claim 9 is allowed.
7. Claims 1-4, 6, 8 and 10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

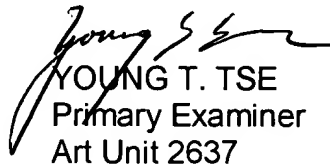

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References Crozier et al., Xu, Miyata et al., and Hewitt et al. are made of record as describing a related log-likelihood-ratio (LLR) or a soft-decision metrics algorithm calculator circuit.
